

PROTECTION TISSUE PAPERS FOR CALANDERS

PPX, the best tissue to protect calander transfer beds against ink pollution. Because of the humidity free and carefully controlled production environment PPX rolls are free from wrinkles. The paper is available in many widths to perfectly fit your production needs. Because of the low paper weight a roll contains a high number of metres, which results in fewer roll changes.

Product reference	PPX
Grammage	20 - 28 g/m ²
Features	<p>Low paper weight: Reduction of waste material Lower porosity: Elimination of ink blow through risk High tensile strength: Resists 210°C for 16 seconds Non-yellowing formula: No risk of fabric discolouration Formaldehyde free</p>
